Preamble

As an Australian Financial Services Licensee who has a licence to provide personal financial advice to retail clients, we are required to have in place a CPD Policy for the individuals who provide that personal advice on our behalf. The legislation has very specific requirements and our Policy is designed to address those requirements. In this Policy ‘our’ and ‘we’ refers to all parties.

Training Year

Our training year commences on 1 July each year. Each representative must have an Individual Training Plan for the relevant year which must be approved by us. These Training Plans will be recorded in the Kaplan Ontrack system. The representative must also record completed training and provide it to us for verification when requested to do so. Those representatives who do not complete the required training are to be reported for non-compliance to ASIC.

Content of training

Training must cover the following competencies and minimum hours in each category:

If a representative wants to amend the training plan they must seek approval from us and our approval will not be unreasonably withheld as long as the plan meets the minimum requirements as set out in Table above, sets out the areas for improvement and the overall total of required hours.

Approved CPD Activities

The session must clearly include content specific to the area of competency in Table above. It is to be presented by a suitably qualified person on the subject matter. It must contain an assessment to confirm the understanding of the subject matter by the representative.

The method of delivery can be face to face (such as an industry/association PD Day), or online through written communication or video/streaming (such as provided by Kaplan Ontrack), or through a published paper issued by Principal Partners (VIC) Pty Ltd or approved by us even though issued by an industry association or educational institution.

Representatives will need to record other CPD Activities completed external to Ontrack and the Ontrack register has provision for that however you will need to provide evidence to

support those entries to our Training Co-ordinator for Official Approval before it will be counted towards your targets.

We will periodically request, at least quarterly, records of your training completed to track that representatives are completing training that complies with our requirements. Where a representative is found not to be completing training on an ongoing basis, we will require that representative to catch up by the end of the following quarter or in the last quarter of the Training Year representatives will be required to have met all targets by the end of that quarter. Representatives who have not achieved the required training by the end of the training year, 30 June of each year, will be reported to the regulator that the standard required has not been met which in turn will be recorded on the Financial Adviser Register.
